Léoube

GIN BY LÉOUBE

Crafted from our own olives and the flora of the Mediterranean coast, Léoube Gin invites you on a sensory journey through our protected Provençal estate. Carefully distilled, its delicate flavor captures the essence of gentle summer evenings by the sea, where the intoxicating scents of wildflowers mingle with the ocean breeze. Remarkably complex, it can be enjoyed neat or as the perfect base for an elegant cocktail.

AROMATIC NOTES :

Juniper, Léoube olives, bitter almond, sweet orange, mandarin, rosemary and fennel.

TASTING NOTES :

The nose is elegant and expressive, revealing juicy notes of citrus fruits and citrus leaves, lifted by a delicate bouquet of spices typical of gin.

On the palate, it is both smooth and complex. Citrus aromas intertwine with subtle hints of anise and pepper, while rosemary gently unfolds on the finish.

With its saline and gourmet character, this gin invites you on a sensory journey along the sun-drenched paths of the Mediterranean.

DISTILLATION :

Each botanical extract was distilled separately with grape alcohol in copper stills at a traditional French distillery. They were then carefully blended by the master distiller, guided by our sensibilities, to create this unique and aromatic gin.

ALCOHOL CONTENT : 41.5% VOL
